6) Status with respect to the project management report (ahead of schedule/as-per-plan/slippage) and reasons, if delayed :

Slight slippage.
Reason : Thinking about which functionalities to implement in the coding phase, to serve the requirement. Conflict of ideas in designing the UI / UX prototype of the product.

7) <u>Problems faced related to the project (if any)</u> : The intricacy of converting the design to the actual model, in the implementation phase was quite a hectic task. Figuring out and filtering out the functionalities to be implemented, was also demanding.
